

## **SMOKEFREE /AUAAHI KORE POLICY**

### **CANTERBURY VOLLEYBALL ASSOCIATION**

**We are committed to making our Association Smokefree/Auahi Kore.**

Our Association encourages members and visitors to be Smokefree because:

- It is a positive health choice for us all to make
- We support the provision of healthy environments for everyone to enjoy
- We support people who want to give up smoking
- We support non-smokers, especially our children and youth, by encouraging environments which minimise the pressure to start smoking
- We want to protect our members from the harmful effects of second-hand smoke
- We wish to comply with the Smoke-free Environments Act 1990.

#### **Please respect our policy:**

- By not smoking in any indoor venues utilised by the Association.
- By not smoking in and around beach volleyball courts utilised by the Association.
- By not smoking while in Canterbury Volleyball Uniform (this includes when teams are training, playing or travelling, indoors or outdoors).
- Remind smokers not to light up in our Smokefree areas and support friends and family who are giving up.

This policy is effective from 01 September 2014.

**All members and visitors within our Association must comply with these requirements.**
